

Downey Home Complete Reroof and Siding

Downey Home Before We Began

First we professionally tear off the old damaged roof and haul away. **RR Roofing** always will keep the outside of your property cleaner than when we began.

When necessary, **RR Roofing** will professionally install roof sheathing over your house per city codes.

Whether your house is low or high pitched, **RR Roofing** has the experience to install any type of roofing you desire. In this case, we are installing a 30 year composition shingle.

RR Roofing can also remove your old siding, replace any damaged rafters and install new siding.

Prior to installing siding, **RR Roofing** always installs top quality moisture barrier per city codes.
